Before Light Line opened, Light Line opened after the new streetcar line was built in Japan 76 years ago. (A) was Light Line built in this modern society? I was in the English club when I was in high school. One day in August, our teacher, Mr. Tanaka, said to us, "You know there is a festival, Yamate *Cosmos Festival, in this town in October. A lot of foreign people will come to the festival. Please think about what to do for the festival."

We started thinking about it, then I told the other members about my idea. I said, "How about making *flyers of the festival and giving them to the foreign people?" Mr. Tanaka said, "That is a good idea, Makoto. What do you think about his idea, everyone?" All the other members agreed with me. We started to make the flyers.

Next month, we finished making the flyers. After that, Mr. Tanaka told us two things about what to do at the festival. The first thing from him was that we should talk to the foreign people in English when we gave them the flyers. He thought that the second thing was more important. He said, "When we can't understand their English, we should ask them, 'Could you say that again?' That's important when we communicate with foreign people."

On the day of the festival, I was very (A), so at first, I gave the flyers to foreign people without saying anything. But soon I realized that it was not good. Well, could you show me around the festival?" Then Mr. Tanaka talked to me. "This will be a good experience for you. Please show her around the festival." I decided to walk around the festival with her.

While I was walking with her, the woman asked me some questions. I sometimes couldn't understand her English. Then I asked her, "Could you say that again?" Now I work for a professional baseball team as an English *interpreter. There are some foreign players on the team.

C I have to change their words into Japanese words *immediately. But I enjoy my job every day. My experience at Yamate Cosmos Festival is, and will be, very special for me.
